

# Teachers responding to the crisis

Skills for remote teaching in  
vulnerable contexts are a new part of  
the teacher's profile for the future.

- Post-Covid 19 school.

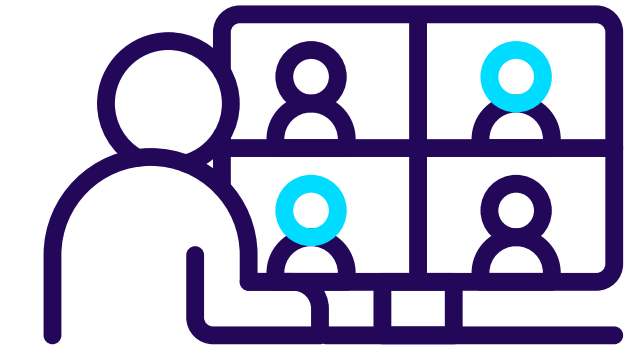

- Motivate students via remote learning.

## Remote pedagogical strategies, developed by teachers, such as digital and audio-visual resources:

- Development of technological skills.
- Participation in institutional spaces for the exchange of good practices.
- Content updates to include socio-emotional education.
- Teaching focused on each student's educational journey.
- Personalisation of the interaction with students and monitoring to guarantee efficacy.
- More personalised work in smaller groups.
- Prioritisation of content.

## Teacher training and professional development:

**83%** of teachers participated in training events

**47.9%** took online courses

**28%** attended virtual presentations by experts

**19.55%** exchange spaces with colleagues
