Teaching with WhatsApp

Introducción

En este documento, aprenderá a crear un grupo y a usar WhatsApp como una plataforma educativa para las clases a distancia.

WhatsApp posee muchas ventajas en comparación con otras plataformas de enseñanza, una de ellas es que requiere conectividad ligera, funciona tanto en dispositivos móviles como en computadores, es una aplicación muy popular y la mayoría de los estudiantes la tienen instalada en sus dispositivos y saben cómo utilizarla.

Consejo tecnológico

WhatsApp principalmente se conoce como una aplicación para enviar mensajes de texto, sin embargo, puede ser utilizada para crear grupos y enviar lecciones o sesiones de capacitación, tanto a grupos como a personas específicas.

WhatsApp tiene varias funciones útiles para impartir clases en grupo. Puede utilizarla para impartir lecciones tanto sincrónicas como asincrónicas.

Puede utilizarla para realizar videoconferencias, audioconferencias, así como también, para enviar archivos, imágenes, enlaces de recursos en línea y mensajes de texto y audios.

WhatsApp puede instalarse tanto en teléfonos móviles como en computadores: https://www.whatsapp.com/

Referencia de duración del seminario web: Todos

Nivel: WhatsApp es apto para personas mayores de 16 años.

Objetivo: Permitir llevar a cabo lecciones a distancia usando WhatsApp
**Preparation:**

- Download and install WhatsApp onto your mobile device and your computer. We recommend that when you teach you use your computer rather than your mobile device as the computer interface is more user-friendly for teaching.

- Create a new group on WhatsApp and add the students that you want to teach to the group.

- Post an introductory video message telling the students about how you will use the app with them and share a schedule for your live classes (if you intend to deliver live classes).

- Prepare some tasks that students can do before the lesson and share them with the group.

- Prepare the materials and tasks that you will use during the lesson (worksheets are best converted to images to make them easier to share during the lesson).

- If you want to use a presentation, convert your slides to images that you can share during the lesson.

- Prepare some post lesson materials that students can use to consolidate what they learn during the lesson.

**Procedure**

- When you are ready to start your live class, ask students to send a thumbs up emoji to let you know they are ready to start.

- Depending on how you want to deliver your class, start sharing your video/audio and start posting the materials and activities.

- Remember, it’s best to post the instructions first using text and then post the materials.

- When you want students to participate or interact, ask them to turn on their video or audio.

- If the students’ connectivity is poor, you can ask them to respond by posting audio messages or typing in text.
NEW WAYS OF TEACHING

When you are ready to start your live class, ask students to send a thumbs up emoji to let you know they are ready to start. Depending on how you want to deliver your class, start sharing your video/audio and start posting the materials and activities. Remember, it's best to post the instructions first using text and then post the materials. When you want students to participate or interact, ask them to turn on their video or audio. If the students' connectivity is poor, you can ask them to respond by posting audio messages or typing in text.

Additional resources

Teaching on WhatsApp

- This guide provides instructions on how to design and deliver an interactive training course through the WhatsApp messaging platform. Drawing on the Grassroots' pilot teaching leadership and storytelling through WhatsApp, the document shares tips on pedagogy, participant engagement, and the technical aspects of launching a distance-learning course on WhatsApp.

LearnEnglish Teens

- Here you can find lots of materials and activities that you can use to develop your students’ skills, grammar, and vocabulary. These activities can be adapted for delivery through WhatsApp and can be shared for your students to do as homework activities.

Using mobile messenger apps to teach English remotely

- Using a mobile messenger app such as WhatsApp is one way to support the remote learning of English and other subjects. This is especially useful when learners or teachers can only use the internet on their mobile phones or have limited data. There are a variety of ways that these apps can be used. You will need to think about the situation that most of your students are in and then design your approach and activities.

Navigating language learning through WhatsApp during the lockdown

Using WhatsApp for interactive tasks

- As teachers, we are constantly looking for opportunities to exploit the learning potential of the tools and resources that our learners are already using. WhatsApp, or other free messaging platforms, are now almost ubiquitous in many contexts. This interactive workshop reports on a project designed to increase EFL learners’ exposure to English outside class through a programme of tasks on the social media platform ‘WhatsApp’.

Teaching pathways: Skills for remote teaching

- In this practical five-week course, you will develop the skills you need for remote teaching and reflect on how they relate to your learners’ learning. You will learn about different approaches to remote teaching and consider what factors make the transition from the physical to online classroom successful.

Getting started with online teaching

- Many classes and school systems all over the world are taking steps to offer lessons online. However, stepping into the digital world overnight can be challenging for many teachers. This guide is useful for teachers and teacher educators who have little experience of online teaching and need some advice on where to start.
