

Doing a word search actividad en WhatsApp

Introducción

En esta actividad, aprenderá como crear una sopa de letras para luego enviarla a los estudiantes a través de WhatsApp.

Esta actividad puede aplicarse de manera independiente o como parte de una lección para averiguar qué palabras conocen los estudiantes.

Consejo tecnológico

Esta actividad requiere tres tipos de tecnología.

- Crear un juego de sopa de letras gratuito disponible en: <https://puzzlemaker.discoveryeducation.com/word-search>
- Una herramienta gratuita de captura de pantalla disponible en: <https://www.screencastify.com/>
- La aplicación gratuita de comunicación para móviles y computadores, WhatsApp, disponible en: <https://www.whatsapp.com/download>

Esta actividad está diseñada para la aplicación de mensajería WhatsApp. La actividad puede utilizarse de forma simultánea durante una lección en vivo.

WhatsApp es una aplicación gratuita muy eficiente que puede descargar en su dispositivo móvil y/o computador portátil. La aplicación es compatible con diferentes formas de comunicación, sincrónicas y asincrónicas, incluyendo mensajes de texto y audios. También puede compartir documentos, imágenes, audios y videos que usted almacene. WhatsApp permite la comunicación grupal e individual, además de llamadas y videollamadas.

WhatsApp no es demandante en conectividad, esto la hace muy popular entre los usuarios de zonas rurales, en donde el acceso a la conectividad es limitado.

Referencia de duración del seminario web: 07:06 - 07:35

Nivel: Cualquier nivel. Los usuarios de WhatsApp deben ser mayores de 16 años.

Duración: De 15 a 20 minutos, dependiendo de la cantidad de palabras que desee que los estudiantes aprendan.

Objetivo: Mejorar el vocabulario de los estudiantes.

Preparation:

- Create a group on WhatsApp and add your students to it.
- Choose the words you want your students to learn or revise.
- Go to: <https://puzzlemaker.discoveryeducation.com/word-search> add your words and create a puzzle.
- Use a screen capture tool (<https://www.screencastify.com/>) to make an image of the puzzle. Note: Alternatively, you can produce a word search activity on paper and simply take a picture of it with your phone's camera.
- Create a document with the list of words and their definitions (along with any additional information such as pronunciation you would like your students to know).
- Create a screenshot of your document.

Procedure

- Ask your students to post a 'hands-up' emoji to show you that they are ready to start the lesson.
- Post the image of the word search to your group.
- Ask your students to type any words they can see in the word search puzzle.
- Once your students have typed all the words, ask the students to try to type in the definitions for each word.
- Next, post the image of the answer sheet with the definitions, so the students can check their answers.
- Finally, you can post a recording of yourself saying each of the words so that your students have an audio record of the words. If you want to check their pronunciation, you could also get the students to record the words and post them back.

Additional resources:

Teaching on WhatsApp

- This guide provides instructions on how to design and deliver an interactive training course through the WhatsApp messaging platform. Drawing on the Grassroots' pilot teaching leadership and storytelling through WhatsApp, the document shares tips on pedagogy, participant engagement, and the technical aspects of launching a distance-learning course on WhatsApp.

Using mobile messenger apps to teach English remotely

- Using a mobile messenger app such as WhatsApp is one way to support the remote learning of English and other subjects. This is especially useful when learners or teachers can only use the internet on their mobile phones or have limited data. There are a variety of ways that these apps can be used. You will need to think about the situation that most of your students are in and then design your approach and activities.

Using WhatsApp for interactive tasks

- As teachers, we are constantly looking for opportunities to exploit the learning potential of the tools and resources that our learners are already using. WhatsApp, or other free messaging platforms, are now almost ubiquitous in many contexts. This interactive workshop reports on a project designed to increase EFL learners' exposure to English outside class through a programme of tasks on the social media platform 'WhatsApp'.

Teaching pathways: Skills for remote teaching

- In this practical five-week course, you will develop the skills you need for remote teaching and reflect on how they relate to your learners' learning. You will learn about different approaches to remote teaching and consider what factors make the transition from the physical to online classroom successful.

Getting started with online teaching

- Many classes and school systems all over the world are taking steps to offer lessons online. However, stepping into the digital world overnight can be challenging for many teachers. This guide is useful for teachers and teacher educators who have little experience of online teaching and need some advice on where to start.
