

Tutoriais em vídeo para os pais

Introdução

Estudos indicam que o engajamento dos pais e o interesse no aprendizado de seus filhos pode ter um impacto significativo no progresso da criança. No entanto, reconhecemos a dificuldade que pode haver para pais mais ocupados em arranjar tempo para vir à escola e falar sobre seus filhos.

Nesta atividade, você verá como você pode configurar e entregar um tutorial virtual com os pais usando um aplicativo simples e gratuito baseado na web que não requer nenhum programa.

Tech tip

Videolink2me é um aplicativo gratuito que funciona no navegador e que não requer nenhum download ou cadastro. Clique no botão 'Iniciar chamada de vídeo' e um link exclusivo é criado. O link pode então ser compartilhado com quem você quiser conversar.
