# SOME COMMON QUESTIONS WHEN ASSESSING ONLINE

Should I focus on grammar, accuracy, skills, language usage?

Are the students cheating?

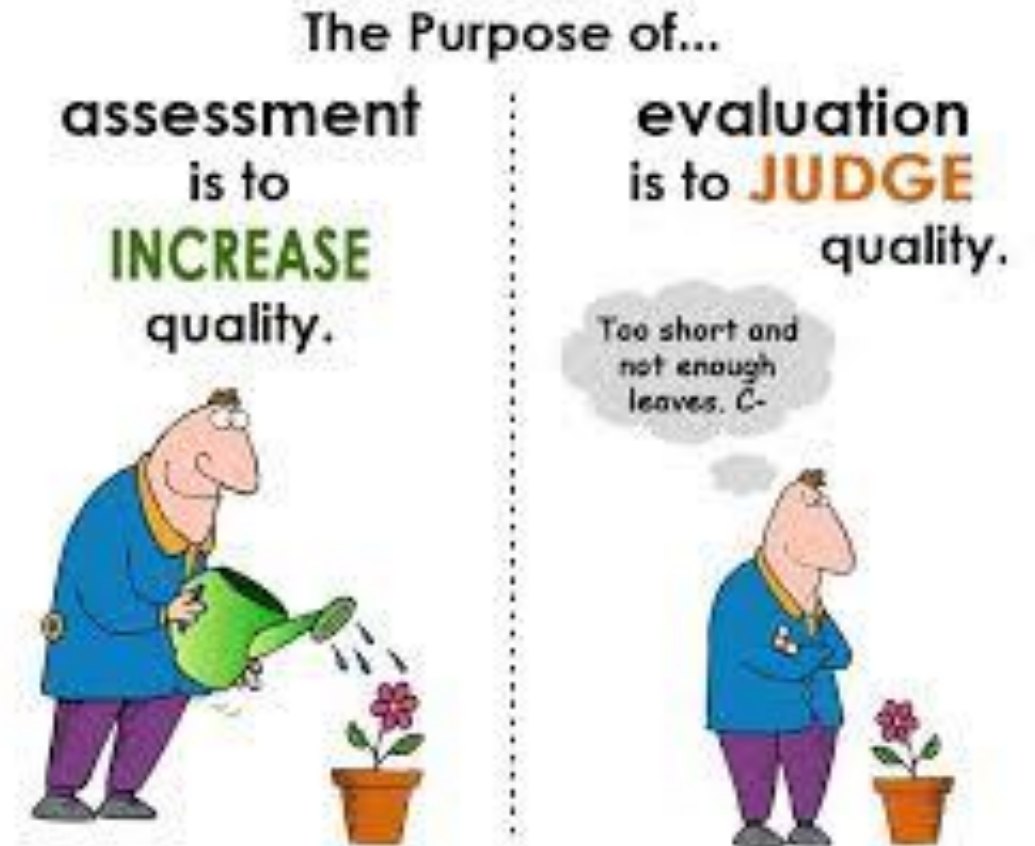

How do I manage to measure learning online?

How can I motivate students to focus on the progress and not only on their marks?

# Assessment Principles

The majority of the education settings are more shaped by evaluation experiences than assessment ones.

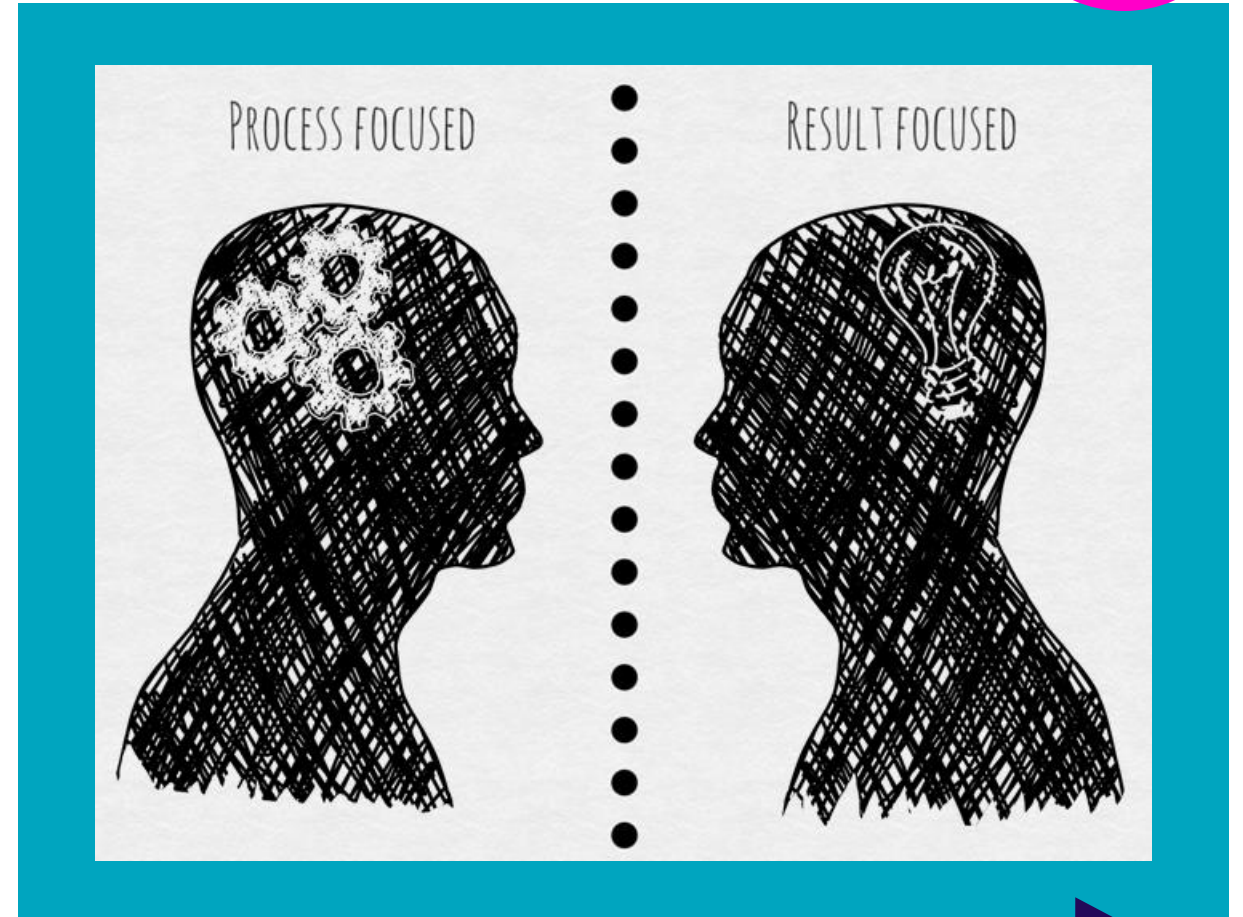

- Are evaluations normally stressful or negative?
- What is the first thing that comes to your mind when I say evaluation?
- Does evaluation really measure what students know or their abilities?
- Why is it so difficult for teacher to focus on the process rather than in the result?

# SUMMATIVE VS FORMATIVE ASSESSMENT

Our vision of learning showcase the importance we give to summative and formative assessment.

- Is learning a result or process?
- What do we attempt to measure when assessing?
- Do assessment tools only measure students' abilities or the effectiveness of the class?
- Does Formative Assessment provide a timely feedback for both student and teacher?

# ASSESSMENT ONLINE: THINK ABOUT THE POSSIBILITIES

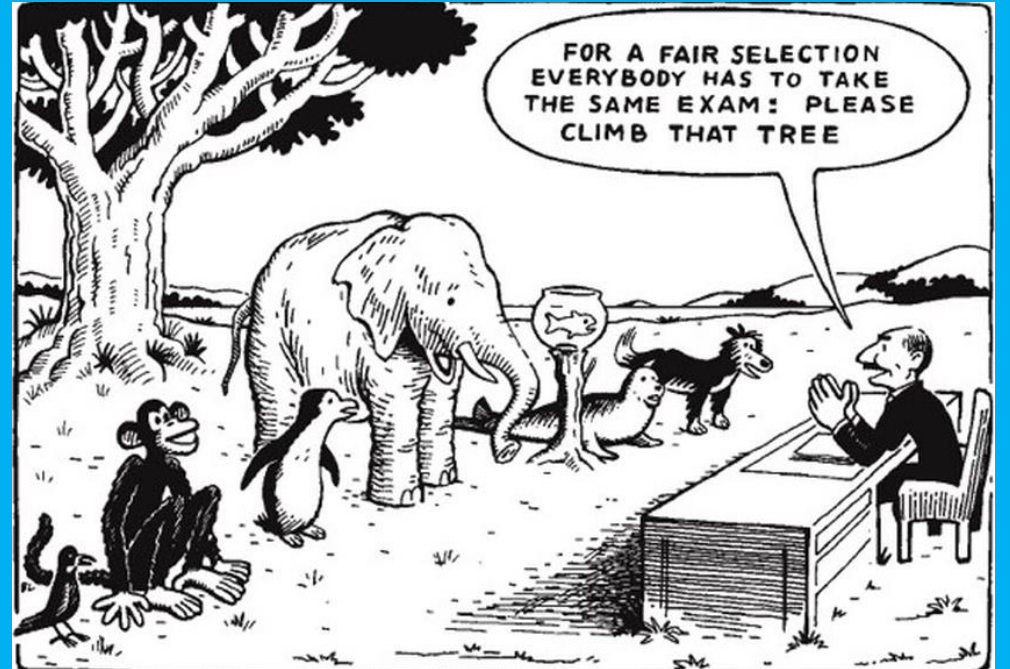

Learners' situation

What's possible?

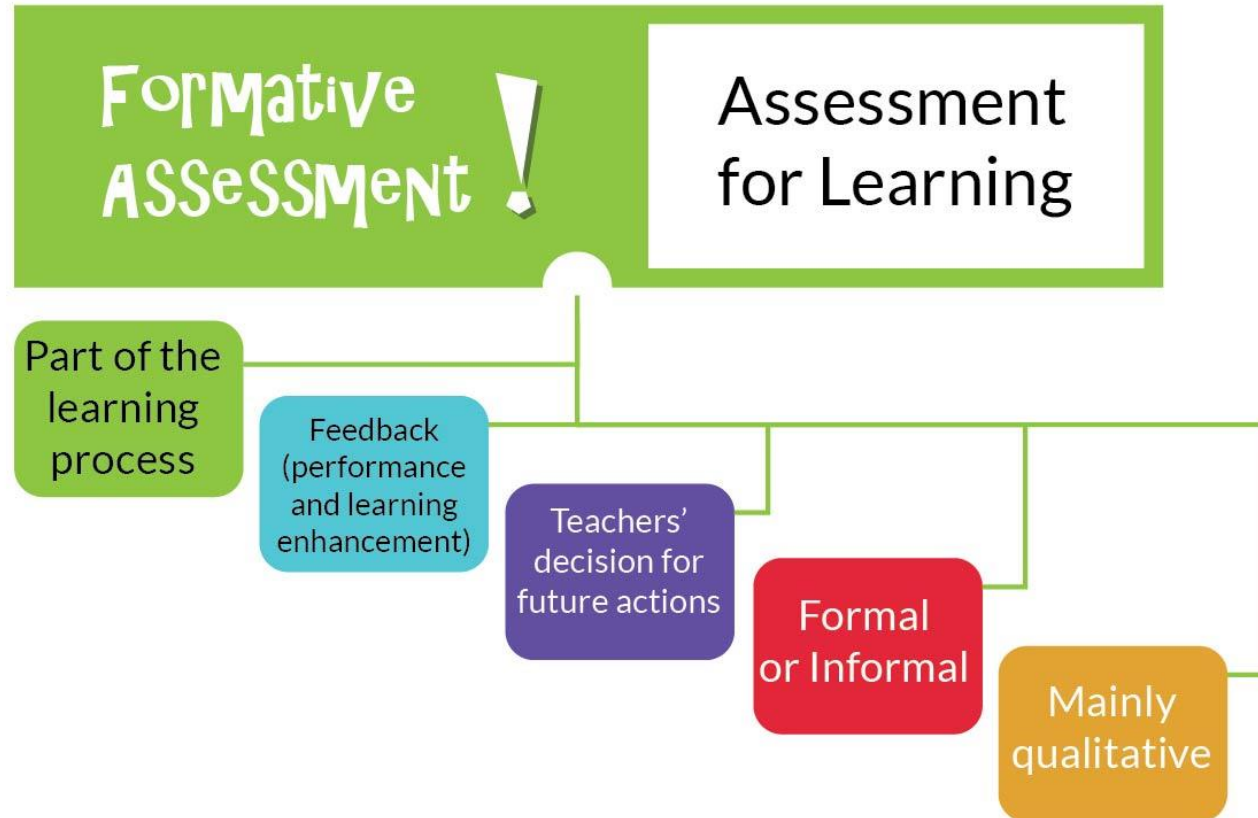

Is assessment equivalent to testing?

Fairness and reliability

Formative or Summative

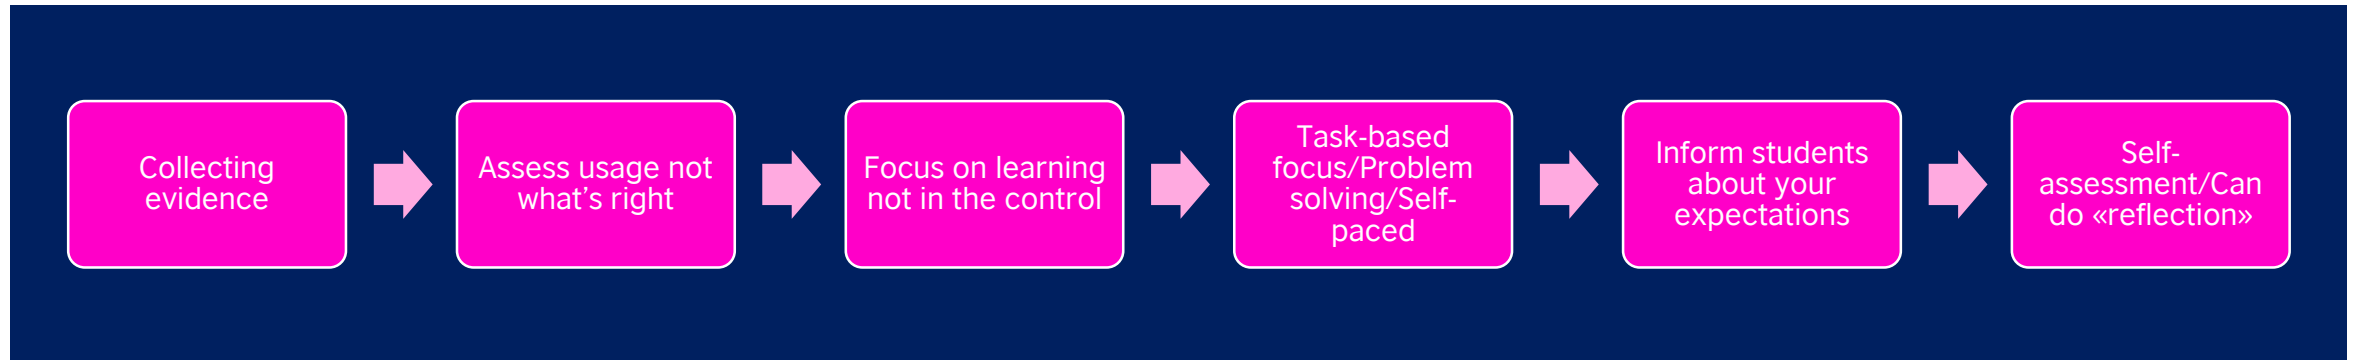

# What is Formative Assessment?

*“Formative assessment represents evidence-based instructional decision making. If you want to become more instructionally effective, and if you want your students to achieve more, then formative assessment should be for you.” - Popham (2008), p. 15*

# ONLINE ASSESSMENT TOOLS CONSIDERATIONS

---

# FORMATIVE ASSESSMENT TOOLS

# Formative Assessment Tools Analysis

They are all easy to use

They are all fun and engaging

They are easy to access from any device

They all can be used to create quizzes

They all provide fast, right-or-wrong feedback on students' devices and on the class screen.

Quizizz is the only one that integrates with Google Classroom

Quizlet allows students to manage their learning

# FINAL THOUGHTS ON ONLINE ASSESSMENT

---

# REFLECTIONS ABOUT ASSESSMENT ONLINE

1. Change the mindset and assess for academic success
2. Switch to a more formative assessment environment
3. Do not be afraid to use game-based tools for assessment
4. Focus on questioning in a deeper level based on Blooms's taxonomy in the online environment not offline
5. Create an assessment system where students can be successful and enjoy learning
6. Focus on language usage not only on grammar
7. Establish an assessment cycle that allows you to incorporate needed improvement and change
